13. ADJOURNMENT
Resolution to Protect Our Democracy with Public Source Voting Systems

WHEREAS a citizen's right to vote and to have that vote counted as cast - the hallmark of America's constitutional republic - is jeopardized by proprietary code electronic voting systems vulnerable to inside and outside threats and hacks; and,

WHEREAS, the California Democratic Party Platform has previously embraced open source voting technology since computer scientists and election protection experts agree that proprietary software is unacceptable because (a) electronic hacks would be undetectable by the public due to corporate ownership of the software and (b) security by attempting to keep software code secret is a failed defense methodology; and,

WHEREAS, there has been documented evidence of threats to our elections from foreign governments seeking to undermine the very foundation of our democracy;

THEREFORE BE IT RESOLVED that the California Democratic Party renews our call for General Public License open source / paper ballot voting systems and for state funding of said systems to an extent necessary to expedite said system's immediate deployment via encouraging pilot programs / pooling of resources as well as all other available measures to protect our democracy; and,

BE IT FURTHER RESOLVED that the California Democratic Party calls on the State of California to (1) make the use of corporate owned "secret software" unavailable for election systems and (2) direct counties to discontinue its use in favor of publicly owned voting systems.

Letter in Support of SB 239 (Wiener)

Dear Senator Wiener,

[ORGANIZATION NAME] is pleased to support your SB 239 (Wiener), which would modernize laws that criminalize and stigmatize people living with HIV.

During the 1980s and 1990s, fear and ignorance about HIV and its transmission led California to enact discriminatory criminal laws targeting people living with HIV. These laws created unique restrictions on and harsher punishment for people living with HIV compared to people living with other communicable diseases. Since then, effective treatments have been developed that dramatically lengthen and improve the quality of life for people living with HIV. Successfully treated, people living with HIV have a near normal life expectancy and the risk of transmission to others is negligible to nonexistent.

Current HIV-specific criminal laws in California fail to reflect a science-based understanding of HIV prevention, treatment and transmission. Research suggests that criminal laws targeting HIV have done nothing to further public health, as they have not been found to influence people’s behaviors or reduce the number of new infections. Instead, these laws have been found to disproportionately impact women and people of color in California. While women living with HIV comprise only 13 percent of people living with HIV, they make up 43 percent of those criminalized under California’s HIV-specific criminal laws. Furthermore, while about half of people living with HIV in California are Black or Latino, two thirds of people criminalized under HIV specific laws are Black or Latino. Thus, criminal prosecution under these laws serves only to fuel continued stigma and discrimination against people living with HIV and communities disproportionately impacted by HIV.

California criminal law should take the same approach to HIV as it does to other serious communicable diseases. We support promoting public health by reducing HIV stigma and eliminating any remaining barriers to testing and care. For these reasons, we support SB 239 and your effort to bring California law into line with current science.
Resolution Opposing California Secession and Russian Efforts to Divide the United States

WHEREAS throughout both the general and the partisan primary process of the November 2016 Presidential election, foreign entities such as Russia mounted an influence campaign to affect the outcome of the election, activity that nonpartisan foreign policy experts and American intelligence agencies have since investigated, testified about under oath, and deduced from to develop a uniform conclusion: Russia wants to sow political discord within the United States of America and elsewhere as a part of a greater global strategy to empower Russian national interests; and

WHEREAS—as has been reported in the New York Times, National Public Radio’s The California Report, and other reliable news outlets that employ fact-checking—efforts to encourage the state of California to secede from the United States of America has drawn interest from Russia, and the conservative, anti-LGBT activist who co-founded the pro-secession organization “Yes California” (as of April 12, 2017) lives and works in Russia; and

WHEREAS California has been and continues to be a leader in advancing and advocating for progressive policies to protect the environment, social justice, and equality; a proud center of the Resistance against the extreme GOP agenda; an economic engine that benefits from direct commerce with other states; and an innovative epicenter for the arts, technology, and other American industries integral to the livelihood of all Americans, all of which would be disrupted and permanently harmed by California’s secession from the United States; now

THEREFORE BE IT RESOLVED that the California Democratic Party unequivocally opposes all organizing efforts to get California to secede from the United States of America and considers such efforts as an attempt to weaken our great country and empower foreign adversaries of the United States of America;

AND BE IT FURTHER RESOLVED that the California Democratic Party will strive to educate all California residents as to the national security and foreign policy risks associated with the secession of California from the United States and will encourage California residents to be wary of any messaging supportive of California secession, especially messaging communicated via social media or Russian-affiliated news outlets.
BYLAWS OF THE SANTA CLARA COUNTY
DEMOCRATIC CENTRAL COMMITTEE

ARTICLE I: Name, Organization, and Purpose

To determine the number of Elected-Equivalent Members for each Assembly District find for each Assembly District the population of that portion of the Assembly District that lies within Santa Clara County, multiply by forty the respective ratio of each of those populations to the total population of the
county and round off the result. If the result is greater than six, and subtract six from the result to determine the number of Elected-Equivalent members from that Assembly District. If the result is six or less, there will be no Elected-Equivalent members from that Assembly District, each of those values. Without limiting the availability of any sanction provided for under article II.B. of these Bylaws, as applicable, any Member may be subject to censure by a two-thirds (2/3) vote of the SCCDCC, if the Member publicly advocates that voters support any candidate running against an endorsed Democratic candidate.

In the case of a
tie after such an additional round, the outcome shall be decided by a coin toss, performed by a non-candidate Member, appointed by the Chair for the purpose, with the candidate whose last name is first in alphabetical order calling “heads” or “tails” while the coin is in the air, and the winner of the coin toss shall be elected.

III.GH. Instant runoff voting may be used in any contested election. A motion to use instant runoff voting shall be in order after the close of nominations, before ballots are distributed.

A majority of those present and voting is required to place the proposed legislation on the agenda for consideration.

X.F. Except as provided in this section, proposed legislation or amendments thereto shall be acted on by the SCCDCC in a two-step process which includes initial consideration without action at a first regular or special meeting of the SCCDCC and action no earlier than a second, subsequent regular or special meeting of the SCCDCC scheduled to occur no earlier than fifteen (15) days after the first meeting. The two-step process may be truncated to a single step in which the SCCDCC considers and acts on proposed legislation in a single meeting provided that (1) no less than 15 days written notice of the proposed legislation is provided to members along with notice of an intention to consider the proposed legislation as “emergency legislation” and (2) the SCCDCC designates the proposed legislation as “emergency legislation” by 2/3 vote no later than at the meeting at which action by the SCCDCC is proposed to be taken.
