Winning The Endgame

Dear Democrat,

We wish the president a speedy recovery from his battle with COVID-19.

But as a nation, we cannot afford to forget that Donald Trump's reckless disregard of science has cost us too many American lives.

Nor can we forget his shameful performance at the first presidential debate.

There's no sugar-coating it. He is an existential threat to our democracy.

California and 38 other [states have already started sending out their mail-in ballots](#), and early in-person voting has also begun in 17 states.

We must get out and protect the vote, and anything each of us can do will help.

In the spirit of RBG, let's fight..

Oppose the rush to fill Ginsburg's seat

Next week, the Senate Judiciary Committee begins confirmation hearings for Amy Coney Barrett, whose positions put abortion rights and the Affordable Care Act on the line.

Contact California's senators on the committee, [Kamala Harris](#) and [Dianne Feinstein](#), and urge them to oppose this rush to fill RBG's seat in defiance of [the will of the American people](#), all the more indefensible now that two Republican members of the committee have tested positive for the coronavirus.

Ask your friends in states with vulnerable Republican Senators to pressure them as well.

Get out the vote

Join one of [our remote phone banks](#) for Biden and Democrats nationwide. In September alone, with the help of 125 volunteers, we made nearly 100,000 calls. But we can't let up now - so we'll be ramping up our phone banks from several times a week to daily by Oct. 31.

We are also adding phone banks for two key Senate races during the day on [Mondays](#) and [Thursdays](#), as well as key Congressional races in the evenings on [Tuesdays and Thursdays](#).

Then on Sunday afternoons, there's a [for-youth, by-youth phone bank](#).

More phonebanking opportunities [here](#).

And if you prefer text banking, go to [Text Out the Vote](#).

Donate

Right now, [Democrats have the spending advantage](#). Let's keep it that way.

Donate to:

- [win the White House](#)
- [flip the Senate](#)
- [hold the House](#)
- [re-capture state legislatures](#)

Every dollar you donate makes a difference. It only takes two minutes - do it now!

Protect the vote

Trump and the Republican Party are doing everything they can to make voting difficult.

Fight back.

Volunteer with the state Democratic Party's [Voter Protection Hotline](#), and take voters' calls from your home. Applications close this Friday, Oct. 9.

Or donate to the [Reclaim Our Vote](#) campaign, which is working to boost turnout in the communities of color hit hardest by voter suppression. They're using postcards, billboards, rides to the polls and election monitoring to reach these communities.

In 2019, one of every five postcards they sent into North Carolina's 3rd Congressional District resulted in a voter registration.

Make your plan to vote

Whether in person or by mail, make your plan to vote! If you're voting by mail, vote early. Then [track your ballot](#) to make sure your vote is counted.

Enter your address [here](#) to get a list of candidates on your ballot who were endorsed by the Democratic Party.

Share the [Vote.org](#) website on social media, where Americans can find out if they're registered, register if they're not, locate their polling place, get election reminders, and find out the election rules and deadlines for their state.

With your help . . .

For four years, we've been preparing and organizing for this Election Day, and now there are only 28 days left for one last push.

We should never be hopeless or think our voices don't matter. The past 4 years have proven the opposite is true.

In 2018, we flipped the House.

In 2020, with your help, we'll make sure that Joe Biden is our next President. We'll keep the House and flip the Senate. With your help.

Would you take a moment now to commit to what **you** will do between now and Election Day?

Help us get the word out!
