

Proposed Additions to the SCCDP Local Platform “Housing” Plank

Item	Text
1	Create mixed-income housing in residential areas and near transit to create communities that are mixed income, racially and demographically and socially diverse, to provide folks with new financial and social resources and opportunities to actively combat racism, classism, and historical segregation across our predominantly "redlined" communities.
2	Expand Senior housing since Santa Clara County is number one in senior homelessness.
3	Recognizes that Santa Clara County is a major employment hub and we must scale up our housing supply accordingly to allow people to live near their jobs. By meeting the high demand for housing in our region, we can bring down the cost of housing.
4	Strongly support housing policies centered on preservation of low-income affordable units, protection of renters from eviction and displacement, and production of Extremely Low Income and Very Low Income Affordable Housing.
5	Increase of affordable student and employee housing on public college campuses.
6	Support state efforts to propose yearly budgeted state solutions Advocate for sufficient funding for the Emergency Housing Voucher program (EHV) and implementation of re-housing programs for EHV recipients should the program be eliminated at the federal level.to homelessness and lack of housing.
7	Advocate for sufficient funding for the Emergency Housing Voucher program (EHV) and implementation of re-housing programs for EHV recipients should the program be eliminated at the federal level.
8	Expand building affordable homes in residential neighborhoods, combat segregation in housing, and promote social and financial opportunities.
9	Support dense affordable housing units built near transit centers.
10	Supports policies cutting red tape/expediting approval for housing projects in incorporated areas near public transport hubs.
11	Support increasing height limits for multifamily housing.
12	Support increased funding and staffing for planning and development oversight departments to reduce administrative delays.
13	Support updating zoning to allow more multifamily housing.
14	Support policies giving fee waivers for planning, environmental reviews, permits, and more, for dense housing projects.
